

Swisscom

About Swisscom: Swisscom is Switzerland's leading telecoms company offering services and products for mobile fixed and IP-based voice and data communications. As an innovative multi-service company Swisscom has leveraged its profound telecoms expertise to offer high-speed Internet-based services to guests and clients of the hospitality industry across Europe and North America. Our hospitality services, including conference services, business centre solutions and guestroom high-speed Internet, mean hotel guests can keep in touch and work productively when on the move. We are dedicated to provide sustained business value through continuous improvement in the quality of high-speed Internet-based hospitality services allied with the provision of a competent multilingual customer care and continuous customer-driven innovation. Please visit www.swisscom.ch/hospitality for more information.
