

# Meeting without Traveling

---

Friday, September 5, 2008, 2:15 PM to 3:00PM [[Add to My Calendar](#)]

**Location:** [Conservatory](#) (4th Floor)

**Moderator:** [Robert Scoble](#) (Fast Company)

**Panelists:** [Guillaume Cohen](#) (Veodia), Gary Griffiths (LiteScape), [Loic Le Meur](#) (Seesmic), [Alain Mowad](#) (Polycom)

**Content:** With rising gas prices and increasingly drastic security measures at airports, traveling is nowhere near as fun as it used to be. Corporations are looking for ways do conduct business without putting people in planes, and video conferencing is becoming a very attractive alternative. This panel will give a state of the art covering a wide range of technologies — from web-based peer-to-peer solutions to high-end telepresence systems — and show how companies large and small can take advantage of these products.
