

Oprius

About Oprius: Oprius is a SaaS sales tool designed for individual professional sales people. We provide a simple to use tool without all the fat of traditional systems. Our product was the result of a year of research with Sales people in the trenches evaluating their current systems and building to their specifications. Imagine a product designed by sales people for sales people. Oprius provides tools for lead capture, automated sales and marketing calendars, and a integrated email client that automatically attaches your outgoing and incoming emails to your contacts history. There is also a stay-in-touch reminder. Please visit www.oprius.com for more information.
